

# COUNTY OF YORK

## MEMORANDUM

**DATE:** June 28, 2000 (BOS Mtg. 07/18/00)

**TO:** York County Board of Supervisors

**FROM:** Daniel M. Stuck, County Administrator

**SUBJECT:** Wildey Road Water Line Extension

As part of the Utilities Strategic Capital Plan, the Department of Environmental and Development Services (EDS) proposes to extend public water to the end of Wildey Road in Seaford. As is typical with relatively small water extension projects (i.e., Old York Hampton Highway and Oyster Cove) the County has requested that Newport News Waterworks (NNWW) provide a cost to construct the improvements. NNWW has provided an estimate of \$42,700 to construct the necessary improvements and EDS has found the cost to be fair and reasonable.

The construction will consist of replacing 936 feet of 2" water line with 1,380 feet of 8" ductile iron pipe, 225 feet of new 2" PVC line and adding three fire hydrants. The extension will provide public water for six existing homes, which have executed Water Line Agreements, and up to five additional improved and unimproved properties. This extension will improve the water quality and provide adequate water pressure for fire suppression.

The attached resolution provides approval for the County Administrator to execute the Wildey Road Waterline Extension Agreement with Newport News Waterworks and pay Waterworks \$42,700 to construct the necessary water extension. This is a standard agreement required by the City. Sufficient funds are available to complete this project.

This procurement has been conducted in accordance with state procurement laws and/or County procurement policy and I recommend approval through adoption of proposed Resolution R00-112.
